Vendor

1- Handle the order status.

The screenshot displays the 'todakFood' vendor dashboard. At the top, there are two summary cards: 'Overall Sales :50' (labeled 1) and 'Today Sales :19' (labeled 2). Below these is a 'Detail Order' section showing an order for 'asian1' with items like 'nasi goreng kampung' and 'mee goreng udang', totaling RM 19, with a status of 'complete'. The main section is titled 'Order' and features a dropdown menu set to 'Complete'. Below this is a table with columns: 'Bil', 'user', 'Status', and 'Type'. The table lists four orders, all with a status of 'complete'. To the right of each row is a set of action buttons (labeled 3): 'preparing' (blue), 'complete' (green), 'cancel' (red), and 'detail' (grey).

Bil	user	Status	Type	Actions
1	customer	complete	delivery	preparing, complete, cancel, detail
2	customer	complete	pickup	preparing, complete, cancel, detail
3	customer	complete	delivery	preparing, complete, cancel, detail
4	customer	complete	delivery	preparing, complete, cancel, detail

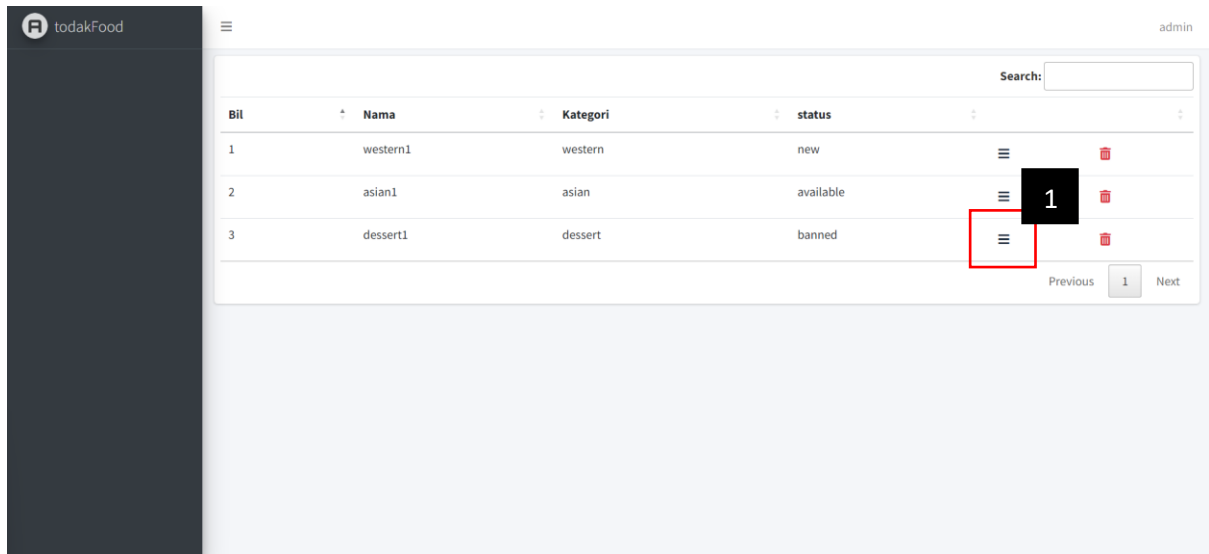

1.1 - overall sales

1.2 Today sales (after status complete)

1.3 Change status per order

Admin

1- Admin capable to change restaurant 'status'

1.1- Button to change status of restaurant.
